

Feral/Community Cat Package Information

The following services are INCLUDED in our feral/community cat package (\$35.00):

- ✓ Spay/neuter surgery
- ✓ Ear Tip
- ✓ Rabies Vaccine
- ✓ FVRCP (feline distemper) vaccine
- ✓ Meloxicam injection (24-hour anti-inflammatory injection for pain)
- ✓ Warm subcutaneous fluids: to help combat dehydration and maintain a warm body temperature

Additional services are offered at a reduced price for feral/community cats:

- Microchip- \$10.00
- FeLV/FIV test- \$24.00
- FeLV Vaccine- \$25.00 (requires 1 booster 3-4 weeks after initial vaccine is given, then is effective for 2 years)

Additional information about surgery:

1. Check-in time is **8:00am**. Scheduled appointments *ONLY*. If you arrive after 8:30am, you may be asked to reschedule or pay a late fee of \$25.00. We do not accept surgery patients after 9:00am.
2. Feral/Community cats must arrive in a humane cat trap (not a carrier or crate) with only 1 cat per trap. Please cover the trap to help the cat feel safe and secure (an old sheet works great for this!). We also request that you do not line the bottom of the trap prior to surgery as this makes administering medication through the trap difficult.
3. Pick up time is **3:30pm** the same day as surgery.
4. For concerns about sick or injured feral/community cats, please call ahead so we can schedule accordingly.
